

MIRTEC

NICHE ELECTRONICS
A Global Electronics Manufacturing Company

“Founded in 1997 Niche Electronics is a solutions driven Electronics Manufacturing Service (EMS) Company, supplying PCB and electro-mechanical assemblies to our customers in the Defense, Aerospace and Industrial markets. Due to increasing circuit density and complexity, our Quality Team recognized the need for 3D Inspection Technology. After evaluating several systems, we determined that MIRTEC’s MV-6 OMNI platform was the best solution to meet our customer’s high-quality standards. Immediately after the acquisition of our second facility our very first capital purchase at the new location was a second MV-6 OMNI machine. These systems have proven to be a solid platform and a key contributor to the growing success of both of our locations.”

Frank Bowman - President, Niche Electronics Technologies and QCMS

- ▶ **OMNI-VISION® 3D Inspection Technology**
- ▶ **15 Mega Pixel CoaXPress Camera Technology**
- ▶ **10um Telecentric Compound Lens Design**
- ▶ **10 Mega Pixel SIDE-VIEWER® Camera System**
- ▶ **Eight Phase COLOR Lighting System**
- ▶ **Full 3D Co-Planarity and Solder Fillet Inspection Capability**
