

SALINE
ELECTRONICS
ELECTRONIC CONTRACT MANUFACTURER

“MIRTEC’s MS-11 3D SPI Systems were the perfect enhancement to our SMT Manufacturing Process. Their revolutionary Intelli-Track Software provides “Real-Time” communication between our MS-11 and MV-7xi systems allowing us to analyze SPI and AOI results “Side-by-Side” for superior process control. Overall, MIRTEC stands out as a company that offers Technologically Advanced Solutions that have been easy to implement within our challenging production environment.”

Jason R. Sciberras, *Manufacturing Manager*

ADVANCED TECHNOLOGY

- ▶ MS-11 High-Speed In-Line SPI System
- ▶ Dual Projection Moiré 3D Image Processing
- ▶ Exclusive Fifteen Mega Pixel ISIS Vision System
- ▶ Precision 10um Telecentric Compound Lens
- ▶ Superior Solder Profile Characterization
- ▶ Extremely Simple Programming and Operation
- ▶ “World Class” Global Customer Support
